<u>Sam Low – Letter of recommendation</u>

To Whom It May Concern:

Sam is dedicated, precise and gets the job done. His ability to understand complex problems considering his little experience in computer science surprised me.
Sam has strong social skills and was able to communicate, participate and contribute to different stakeholders in the company. Sam worked on different projects under my guidance including:

1. Developing a crossword puzzle algorithm and a distributed software that calculates thousands of crossword puzzles with different constraints on the cloud.
2. Developing a back-office server to allow our support team access to our players.
3. Support and mailing list Email collector.
4. Web scraper/spider, youtube spider.

Most of the work was done using NodeJs and Python 3.

In conclusion, I would highly recommend Sam. IMHO Sam will be an extremely positive addition to your organization. If you need any additional information, feel free to contact me at +972542405727 or by email at avi@braingames.net anytime.

Sincerely,
Avi Asher
